## Nordstrom Reports Third Quarter 2020 Earnings

- Earnings per share of $\$ 0.34$ reflected sequential improvement in sales and profitability
- Generated positive EBIT of more than $\$ 100$ million and operating cash flow of more than $\$ 150$ million
- Digital sales of $\$ 1.6$ billion represented $54 \%$ of business

SEATTLE, Wash. (November 24, 2020) - Nordstrom, Inc. (NYSE: JWN) today reported third quarter results, which reflected sequential improvement in sales and earnings relative to the prior quarter. The Company generated earnings before interest and taxes (EBIT) of more than $\$ 100$ million, supported by improved merchandise margin trends and benefits from resetting its cost structure. Earnings per diluted share of $\$ 0.34$ included an income tax benefit of $\$ 0.12$ related to the CARES Act.

For the third quarter ended October 31, 2020, net sales decreased 16 percent from last year and included a positive impact of approximately 10-percentage points due to the shift of the Nordstrom Anniversary Sale from the second quarter to the third quarter this year. Digital sales of $\$ 1.6$ billion accounted for 54 percent of Nordstrom's business.
"Our ability to significantly strengthen our financial flexibility early in the pandemic was key to delivering operating profitability of more than $\$ 100$ million and cash flow of more than $\$ 150$ million in the third quarter," said Erik Nordstrom, chief executive officer of Nordstrom, Inc.
"We also unlocked new ways to better serve customers on their terms with greater convenience and connection, including expansion of our online order pickup services to nearly 350 locations across both Nordstrom and Nordstrom Racks."

## Positioning for Market Share Gains

The Company continues to scale its market strategy to increase customer engagement, drive share gains and optimize inventory efficiencies. In October, Nordstrom rolled out its market strategy to five additional markets, scaling to 10 of its top markets, which account for more than half of sales. In these markets, customers have access to up to seven times more merchandise selection with two-day delivery or next-day pickup. In addition, customers can now pick up Nordstrom.com, Nordstromrack.com and HauteLook.com orders at all Nordstrom and Nordstrom Rack stores in the U.S.

The Company is continuing to leverage digital and physical capabilities to fuel growth of Nordstrom Rack, which represents the biggest source of new customers. In October, the Company further integrated its store and online inventory, which resulted in 30,000 customer choices added to online merchandise selection, more than 10 percent of online orders picked up at Nordstrom Rack stores and approximately 25 percent of online orders fulfilled at stores.

## Strong Anniversary Sale Execution

Strong customer response to Nordstrom's Anniversary Sale drove record sell-through rates, which contributed to profitability. During the event, Nordy Club loyalty customers accounted for approximately 80 percent of sales. In addition, digital sales represented 60 percent of the event with approximately one-third of Nordstrom.com units fulfilled from stores to enable faster delivery.

## Positive Earnings and Cash Flow Generation

Nordstrom delivered sequential improvement in merchandise margin trends relative to the prior quarter, reflecting strong sellthrough and regular price selling trends. Nordstrom also realized year-to-date cash savings of approximately $\$ 550$ million, net of COVID-19 related charges, across expense, capital expenditures and working capital. This included $\$ 330$ million in realized expense savings primarily from resetting its cost structure.
Third quarter operating cash flow of $\$ 155$ million exceeded expectations, enabling Nordstrom to pay down an additional $\$ 300$ million on its revolving line of credit. Nordstrom further strengthened its financial flexibility, ending the quarter with $\$ 1.5$ billion in liquidity including approximately $\$ 900$ million in cash.
"We are thankful for our team's dedication to serving customers in new and differentiated ways," said Pete Nordstrom, president and chief brand officer of Nordstrom, Inc. "By working with our vendor partners, we have made quick adjustments to ensure a great holiday offering for our customers. We are encouraged by the positive momentum and expect continued progress in the fourth quarter and into 2021."

## THIRD QUARTER 2020 SUMMARY

- Total Company sales decreased 16 percent, which included an approximately 10-percentage point impact from the Anniversary Sale event shift. Top performing merchandise categories included active, home, beauty and designer.
- In Nordstrom full-price business, net sales decreased 7 percent. Excluding the Anniversary Sale event shift impact, sales decreased in the mid-twenties percent range.
- In Nordstrom Rack off-price business, net sales decreased 32 percent compared with the same period in fiscal 2019.
- Digital sales of $\$ 1.6$ billion represented 54 percent of total sales and increased 37 percent. Excluding the Anniversary Sale event shift impact, digital sales increased in the mid-teens percent range in the third quarter, consistent with trends in the first half of the year.
- Gross profit, as a percentage of net sales of 32.8 percent decreased 150 basis points from the same period in fiscal 2019 primarily due to the shift of the Anniversary Sale in addition to deleverage from lower sales volume. Merchandise margins exceeded Company expectations and reflected significant improvement relative to the prior quarter.
- Ending inventory decreased 27 percent from last year. Excluding the Anniversary Sale event shift impact, the decrease in inventory was in-line with the decrease in sales for the second consecutive quarter.
- Selling, general and administrative ("SG\&A") expenses, as a percentage of net sales, of 32.1 percent increased 30 basis points compared with the same period in fiscal 2019. The decrease in SG\&A expense of 15 percent from the prior year exceeded Company expectations and primarily reflected continued permanent reductions in overhead costs of approximately 20 percent from last year.
- Earnings before interest and taxes of $\$ 106$ million decreased from earnings before interest and taxes ("EBIT") of $\$ 193$ million during the same period in fiscal 2019 primarily due to lower sales volume, partially offset by realized expense savings.
- Income tax expense of $\$ 5$ million, or 8 percent of pretax earnings, included a tax benefit of $\$ 19$ million associated with the CARES Act.
- Third quarter net income of $\$ 53$ million, which included an income tax benefit of $\$ 19$ million associated with the CARES Act, decreased from net earnings of $\$ 126$ million during the same period in fiscal 2019.

${ }^{1}$ COVID-19 related charges for the nine months ended October 31, 2020 reduced net earnings by $\$ 166$ or $\$ 1.06$ per diluted share. These charges consisted primarily of asset impairments from store closures, premium pay and benefits, and restructuring charges, which were slightly offset by credits from the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). In the third quarter of 2020, the additional tax benefit associated with the estimated loss carryback under the CARES Act increased net earnings by $\$ 19$ or $\$ 0.12$ per diluted share.

${ }^{1}$ Digital sales may be self-guided by the customer, as in a traditional online order, or facilitated by a salesperson using a virtual styling or selling tool, such as Trunk Club or Style Board, and include our sales return reserve. Online orders may also be picked up in our Nordstrom full-line stores, Nordstrom Rack stores or Nordstrom Local service hubs. The increase in digital sales penetration for the quarter and nine months ended October 31, 2020, compared with the quarter and nine months ended November 2, 2019, was driven primarily by changes in customer shopping behavior related to the impacts of COVID-19.

# NORDSTROM, INC. <br> ADJUSTED RETURN ON INVESTED CAPITAL ("ADJUSTED ROIC") (NON-GAAP FINANCIAL MEASURE) 

(unaudited; dollar amounts in millions)
We believe that Adjusted ROIC is a useful financial measure for investors in evaluating the efficiency and effectiveness of the capital we have invested in our business to generate returns over time. In addition, we have incorporated it in our executive incentive measures and we believe it is an important indicator of shareholders' return over the long term.

For 2019, income statement activity for adjusted net operating profit and balance sheet amounts for average invested capital are comprised of three quarters of activity under the new lease standard ("Lease Standard") for 2019, and the fourth quarter of 2018 under the previous lease standard. Under the previous lease standard, we estimated the value of our operating leases as if they met the criteria for capital leases or we had purchased the properties. This provided additional supplemental information that estimated the investment in our operating leases. Estimated depreciation on capitalized operating leases and average estimated asset base of capitalized operating leases are not calculated in accordance with, nor an alternative for, generally accepted accounting principles ("GAAP") and should not be considered in isolation or as a substitution for our results as reported under GAAP.

Adjusted ROIC is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, return on assets, net earnings, total assets or other GAAP financial measures. Our method of calculating nonGAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Adjusted ROIC is return on assets. The following is a reconciliation of return on assets to Adjusted ROIC:

# NORDSTROM, INC. <br> FREE CASH FLOW (NON-GAAP FINANCIAL MEASURE) 

(unaudited; amounts in millions)
Free Cash Flow is one of our key liquidity measures and, when used in conjunction with GAAP measures, we believe it provides investors with a meaningful analysis of our ability to generate cash from our business.

Free Cash Flow is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, operating cash flows or other financial measures prepared in accordance with GAAP. Our method of calculating non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Free Cash Flow is net cash (used in) provided by operating activities. # NORDSTROM, INC. <br> ADJUSTED EBITDA and ADJUSTED EBITDAR (NON-GAAP FINANCIAL MEASURES) <br> (unaudited; amounts in millions) 

Adjusted earnings before interest, income taxes, depreciation and amortization ("EBITDA") is one of our key financial metrics to reflect our view of cash flow from net earnings. Adjusted EBITDA excludes significant items which are nonoperating in nature in order to evaluate our core operating performance against prior periods. The financial measure calculated under GAAP which is most directly comparable to Adjusted EBITDA is net earnings.

Adjusted earnings before interest, income taxes, depreciation, amortization and rent ("EBITDAR") is also one of our key financial metrics as it is used to measure compliance with one of our secured revolving credit facility ("Revolver") covenants for the third quarter of 2020. Starting in the fourth quarter of 2020, EBITDAR will be used as an input in the Fixed Charge Coverage Ratio covenant. Adjusted EBITDAR reflects the items in Adjusted EBITDA, excludes rent expense as defined by the Revolver, and captures other differences between the contractual requirements in the Revolver and Adjusted EBITDA, including the inclusion or exclusion of certain non-cash charges. The financial measure calculated under GAAP which is most directly comparable to Adjusted EBITDAR is net earnings.

Adjusted EBITDA and Adjusted EBITDAR are not measures of financial performance under GAAP and should be considered in addition to, and not as a substitute for net earnings, overall change in cash or liquidity of the business as a whole. Our method of calculating non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. ${ }^{1}$ Adjusted EBITDA and Adjusted EBITDAR for the nine months ended October 31, 2020 included $\$ 166$ for restructuring charges, COVID-19 premium pay and benefits and payroll tax credits from economic stimulus measures, including the CARES Act.
${ }^{2}$ Rent expense, exclusive of amortization of developer reimbursements, is added back for consistency with our debt covenant calculation requirements, and is calculated under the previous lease standard.
${ }^{3}$ Other adjusting items to reconcile Adjusted EBITDA to Adjusted EBITDAR as defined by our Revolver covenant include interest income, and certain noncash charges where relevant.

[^0]:    ${ }^{1}$ As of October 31, 2020 prepaid expenses and other included $\$ 599$ of taxes receivable primarily as a result of the CARES Act, comprised of $\$ 544$ for income tax receivable and $\$ 55$ for payroll tax credits.

[^1]:    As a result of the adoption of the Lease Standard, we add back the operating lease interest to reflect how we manage our business. Operating lease interest is a component of operating lease cost recorded in occupancy costs and is calculated in accordance with the Lease Standard.
    ${ }^{2}$ Capitalized operating leases is our best estimate of the asset base we would record for our leases that are classified as operating under the previous lease standard if they had met the criteria for a finance lease or we had purchased the property. The asset base for each quarter is calculated as the trailing four quarters of rent expense multiplied by eight, a commonly used method to estimate the asset base we would record for our capitalized operating leases.
    ${ }^{3}$ For leases with property incentives that exceed the operating lease right-of-use assets ("ROU assets"), we reclassify the amount from assets to other current liabilities and other liabilities. As a result of the adoption of the Lease Standard, we reduce average total assets, as this better reflects how we manage our business.
    ${ }^{4}$ Integration charges, primarily related to Trunk Club, of $\$ 32$ in the fourth quarter of 2019, were primarily non-cash related and negatively impacted return on assets by approximately 30 basis points and Adjusted ROIC by approximately 30 basis points for the four quarters ended October 31, 2020. COVID-19 related charges for the four quarters ended October 31 , 2020 negatively impacted return on assets by approximately 170 basis points and Adjusted ROIC by approximately 270 basis points for the four quarters ended October $31,2020$.
